

Joko Sumali

G E O L O G I S T

Bachelor of Engineering (Geology),
University of Pembangunan Nasional "Veteran", Yogyakarta

- 2006

OVERVIEW

Joko has over 14 years experience in Coal and Metal project exploration. In Coal project, he has been worked for Aries project, Garuda project, Asmin project, Trans Pacific project, Natuna Energy Project. His expertise includes general survey mapping, validation data of outcrop, determine prospect area, planning bor-hole locations, field coordinator on well-site drilling to a JORC standard, QA/QC (database) and Quality control, Geological modelling and resource estimation using Minex and Surpac mining software. In Metal project, he has been worked for Antam nickel, Stargate Pacific Resources nickel, IBN nickel, Egi Resources manganese, JB Iron ore, East Asia gold and ASP nickel Project. His expertise includes, general survey mapping, validation data of outcrop, determine prospect area, planning bor-hole locations, field coordinator on well-site drilling to a JORC standard, Geological modelling and resource estimation using Minex and Surpac mining software. His computer skills include Minex, Surpac and Autocad Land Desktop.

EXPERTISE

- General Survey Mapping
- Geological Modelling and Resource estimation
- Drone survey with Site Scan Software

CAREER SUMMARY

- 2011 - Present Geologist - PT SMG Consultants Indonesia
- 2010 - 2011 Geologist - PT Greenland Resources
- 2009 Geologist - PT Rancabulan Penjuru Mining
- 2008 - 2009 Geologist - PT Stargate Pasific Resources
- 2006 - 2008 Junior Geologist - PT Antam, Tbk., Geomin

SEMINAR / PRESENTATIONS

- Awareness ISO 9001, 14001 and 45001 Training 4/24/2020
- EMD Indonesia Innovative Technology in Exploration 2/18/2020
- 'Sosialisasi Kode Etik Aspindo' 5/20/2014
- "2 Annual Save Indonesian Coal", Pertambangan Batubara Nasional 4/26/2010
